## Cloud Backup Solutions

Protect your business and your most valuable asset -- your data -- from potential disaster. Whether you're on one of our VPS hosting plans, use our colocation services or have your own servers, in your own space, ParksideTech's Cloud Backups Solutions offers continuous, automatic and secure backup of your most important data. ParksideTech's backup solutions are HIPAA and PCI DSS compliant, further ensuring confidentiality, privacy and security of your data.

- \$15 / month / device
- \$50 / month / 500 GB

### Additional Fees

All VPS hosting plans come with free support during business hours. For colocation customers, Smart Hands support is available. Support requests are handled by logging in to your ParksideTech account: <https://manage.parksidetech.com>. After hours and emergency support are also available.
